

Your first week with Sisi, in about 18 minutes

Sisi will guide you through five short chapters so you can feel what the app could be: learn something, put it to work, see your progress, choose a reward and connect with other women. It is not a test of you. We are testing Sisi.

The story

Chapter	Time	What you do	Done
Welcome	1 min	Open the link or scan the QR code. Read the short note, tick the two boxes, pick a nickname.	☐
1 · LEARN	4 min	Read the lesson “Now-Now, Stack It, Grow It”, answer the three quiz questions and do (or skip) the small action.	☐
2 · DO	4 min	Fix a student’s budget: spend no more than R3,500 and save at least R150. Sisi coaches you as you move the sliders. Then try the payslip decoder.	☐
3 · PROGRESS	2 min	See your Bloom and badges, then pick a weekly target of 1 to 3 days. Nothing resets if you miss a day.	☐
4 · REWARD	2 min	See the reward ladder and choose cash or investment credit. Watch a practice claim move along. Nothing is real money.	☐
5 · CONNECT	4 min	Join one of the practice communities, say hello in its Lounge, start a practice Money Buddy and send a nudge. The women who reply are simulated.	☐
Wrap-up	1 min	See your first week in one place. Note your 4-character participant ID.	☐
After	4–5 min	Fill in the feedback form. It asks for your 4-character participant ID.	☐

A purple strip at the top tells you what to do next. There is no timer: take the time you need.

Good to know

- Use your own phone if you can.
- Lost? Tap **Story** in the purple strip.
- The women in the chats and your practice buddy are simulated for the pilot.
- If something confuses you, that helps us. Say so in the feedback.

Please do not type

- Your full name or contact details
- Your ID number or bank details
- Any real amounts of your own money

All numbers in Sisi are practice numbers. Sisi is education, not financial advice.

After the story: the feedback form (4 to 5 minutes)

Tell us what you liked and did not like, how each feature felt and what you prefer. All multiple choice, with an optional box if you want to say more. **You will need your participant ID** (like 7K3Q, on the last screen of the pilot, which also has an **Open the feedback form** button once the form is live).

Form link: _____ (your session leader fills this in)

Want to see more? Optional peeks

At the end of the story there is a shelf of more of what the app could be. Peek at any of them. A purple strip brings you back.

Peek at	What it is
Payslip simulator	See how a salary becomes take-home pay and plan the rest.
Letterbox	Friends' wins in one place, never amounts.
Invest HER	A guided first investment step. No real money.
Events and calendar	Book a seat, get a QR ticket, check in.
Talk to someone	Ask a real person a money question (no personal details).
Support	Private help and a Quick exit button. Never tracked. Please do not tap the numbers.

When you finish

Remember your participant ID

On the last screen you get a short 4-character ID, for example **7K3Q**. It is random and has nothing to do with your name. Type it into the feedback form so your answers can be matched to what you did, without anyone knowing who you are. If the person running the pilot asks for a results code, it is in the fold below the ID.

What we keep

- Which steps you finish and how long they take, your quiz score, and choices like which reward you pick
- Your feedback form answers, linked by your random ID, never your name
- Whether you used a phone or a computer. Never what you type in chat, or any amounts of your own
- Optional: age band and whether you are a student or working

You are in control

- You can stop at any time.
- Taking part is voluntary.
- To remove your data from this phone: Profile → "Delete my account / reset my data".

One week later (about 2 minutes)

We would love to know whether anything changed for you. In a week we will send you a short follow-up form (all multiple choice, using the same participant ID).

Thank you for helping make Sisi better. Small steps. Big future.
