

Help us test Sisi in 10 minutes

You will learn one money idea, fix a budget, say hello in a community and tell us what worked and what did not. It is not a test of you. We are testing Sisi.

Your 10 minutes

Time	What you do	Where	Done
0:00	Open the link or scan the QR code. Read the short note and tick the two boxes.	Start	☐
0:30	Choose a nickname (not your full name) and join the community that feels most like you.	Mission 1	☐
1:30	Answer the quick check: six money questions and three statements. "I'm not sure" is fine.	Check	☐
2:30	Read the lesson "Now-Now, Stack It, Grow It". Tap Next through the six cards. Skip the quiz.	Mission 2	☐
4:30	Fix the R3,500 budget: spend no more than R3,500 and save at least R150 a month. Tap Save.	Mission 3	☐
6:30	Open your community's Lounge, accept the guidelines and send one friendly message (or react to a post).	Mission 4	☐
7:30	Answer the final check. Similar questions, different wording on purpose.	Check	☐
8:30	Tell us how it went (about a minute). Note your participant ID, then copy or send your results code.	Feedback	☐
After	Fill in the longer feedback form (4 to 5 minutes). It asks for your participant ID.	Feedback form	☐

The purple bar at the top shows a timer. It is fine to go over: we measure how long it really takes.

Good to know

- Use your own phone if you can.
- Lost? Tap **Checklist** in the purple bar.
- "I'm not sure" is a good answer. Please do not look things up.
- If something confuses you, that helps us. Say so in the feedback.

Please do not type

- Your full name or contact details
- Your ID number or bank details
- Any real amounts of your own money

All numbers in Sisi are practice numbers. Sisi is education, not financial advice.

After the 10 minutes: the feedback form (4 to 5 minutes)

Tell us what you liked and did not like, how easy each feature was and what you prefer. All multiple choice, with an optional box if you want to say more. **You will need your participant ID** (like P-7K3Q9X, on the last screen of the pilot, which also has an **Open the feedback form** button once the form is live).

Form link: _____ (your session leader fills this in)

Finished early? Optional extras

Each takes a minute or two. They are not part of the 10 minutes. Please rate the ones you try. You will find them on the last screen, under “Try the optional extras”.

Try this	What to do
Payslip tool	Pick a salary, move the retirement slider, share out the rest and save the scenario.
Money Buddy	Start with a practice buddy and look at this week’s plan.
Letterbox	Search a nickname and add a friend.
Invest HER	Start the guided simulation. No real money is involved.
Talk to someone	Ask a money question to a person (no personal details).
Support	Open Help, then Support. Spot the Quick exit button. Do not tap the numbers.
Rewards	Open Rewards and read how a reward could be earned.

When you finish

Send us your results code

Your answers are saved only in your browser. On the last screen you get a short code that starts with SISI. It has no name or email in it. Please send it to the person running the pilot before you leave: tap **Copy code**, **WhatsApp**, **Email** or **Save file**.

SISI2 .XX...

If you try the extras after you finish, copy the code again so it includes them.

What we keep

- Your answers (app and feedback form, linked by your random ID, never your name) and which tasks you finished
- How long things took
- Whether you used a phone or a computer
- Optional: age band and whether you are a student or working

You are in control

- You can stop at any time.
- Taking part is voluntary.
- To remove your data from this phone: Profile → “Delete my account / reset my data”.

One week later (about 2 minutes)

We would love to know whether anything changed for you. In a week we will send you a short follow-up form (all multiple choice, with the same participant ID). You can also open **sdg-challenge-mock-up.vercel.app/pilot/follow-up** on the **same phone and browser** and send us the new code.

Thank you for helping make Sisi better. Small steps. Big future.
